

Attention all veterans!!!

"Veteran to Veteran; Moments of Peace;" a photo essay by S. Clark.

What is it?

- A work in progress that you, as a veteran, may want to participate in
- A call for entry to all veterans
- A photo essay to honor veterans, an opportunity to contribute to the world

"The experience of WAR is something most veterans cannot fully prepare themselves for . The outcome of participation in a war on each veteran can vary greatly, from complete and profound disability, to inspirational leadership in business and political worlds.

The opportunity of this photo essay is for veterans to be fully self expressed. I would like them to share any "moment of peace" they have experienced before, during or after their service time. Once the veteran's written word is hung in a gallery, viewers will start reading the vets words and be touched moved and inspired.

I am thinking of the newest veterans coming back from war, who may need your inspirational words to find peace themselves. Many are coming back as wounded warriors both in body and soul. .

How does a veteran participate?

Please write to S. Clark and request an application be sent to you. .
