CLUB ASSEMBLY NIGHT

Before we started our continued discussions during our club assembly night, we had the distinct honor of presenting Richard Arthur with a Paul Harris Fellow +2 recognition pin. It is because the gifts of our members like Dick that the Rotary Foundation is able to carry out an array of programs that achieve beneficial changes to our world. Thank you for your support and contributions, Dick!

Beth then led an ongoing discussion from our previous Club Assembly meetings from a few weeks ago. We now have some action items and need to set things in motion to accomplish our goals. We discussed some great ideas for new fundraising projects both short term and long term.

We also must continue to follow up with BH/BL High School Interact Club and Student Government Organization to assist with the volunteering initiative they want to enact at the school.

We must also start thinking about our service projects for this upcoming spring/summer. We have a few planned right now but we are looking for new ideas for short term projects and also ongoing/recurring projects that we work on either throughout the year or continuing year to year.

It is an exciting time for our club as we gain new members, start new programs/projects to help our community, our region/district and the world.

I thank each of you for all of your support and work you do for the club. It truly is amazing how much we accomplish as a small group of volunteers in our upstate New York home.
